Akash Yadav

Mern Stack Developer

Summary

Passionate and skilled **Frontend Developer** with expertise in modern web technologies, including **React.js**, **Next.js**, and **Tailwind CSS**, coupled with backend knowledge of **Node.js**, **Express.js**, and **MongoDB**. Proven ability to create scalable, user-friendly platforms and real-time applications, with a focus on delivering seamless user experiences and optimized performance.

Experience

Nambix Technology

July 2023 - Oct 2023

Junior Frontend Developer

Gurugram

- Developed and maintained a subtitling platform using Uppy and Peak.js libraries in a React.js environment, streamlining the process of uploading and editing media files with real-time updates.
- Created a fully functional platform for finding and hiring linguists, utilizing Next.js, React.js, Tailwind CSS, and Formik forseamless user experience and efficient form handling, ensuring responsive design and optimized performance.

Lingual Consultancy

January 2023 - July 2023

Frontend Intern Gurugram

- Played a key role in developing a web application designed specifically to connect and hire linguists, using Laravel, jQuery later project shifted to React
- Assisted in crafting responsive and intuitive user interfaces in React, utilizing Formik for robust form handling and validation, ensuring a seamless experience for users searching for and recruiting linguists.

Samsung Display Noida

January 2021 - January 2022

Associate || Korean Interpreter

- Facilitated seamless communication between Korean and Indian engineering teams, acting as a Korean interpreter to bridge language barriers and ensure clear collaboration.
- Collaborated with the IT Testing Team to perform web testing, utilizing JIRA to track and manage testing processes efficiently.

Education

Korean Cultural Center

2020 Sri Aurobindo Collage

2016 -2018

Completed Intermediate Level Certification Course in Korean Language and literature.

Political Science

BA

Projects

Trilingual India | Online Teaching Dashboard

Tech Stack: Next.js, Redux, Tailwind, Full Calender, Node.js, Express.js MongoDb, Socket.io

Project Link

Developed a comprehensive educational platform using Next.js, Redux, Tailwind, Node.js, Express.js, MongoDB, and Socket.io, featuring an Admin Panel for managing batches, homework assignments, teacher feedback, class scheduling, and a calendar for events. The platform supports assignment submissions with text, Cloudinary-hosted images, and PDF files, allowing diverse submission formats.

Real-Time Chat Application

Tech Stack : Next.js, Redux, Tailwind, Node.js , Express.js MongoDb, Socket.io

Project Link

Developed a feature-rich real-time messaging application using Next.js for the frontend and Node.js with Express for the backend, backed by a MongoDB database.

Enabled users to share media such as photos and videos, which are securely stored in Cloudinary.

Integrated real-time messaging functionality, providing seamless communication between users, with a focus on performance and scalability.

Skills

Languages Known	Frameworks/Libraries	Database	Miscellaneous
HTML5, CSS3, JavaScript (ES6+), Node.js, jQuery, AJAX	React.js, Next.js, Tailwind CSS, Bootstrap, Redux, Express.js, Socket.io	MongoDB, Mongoose, MySQL	MVC, RESTful Architecture, Docker, Postman, Swagger Git, GitHub, AWS

Certifications

Certification in Next.js and Node.js(MERN)

2024 Full Stack Training

Newton School

2022 -2023

Udemy

S,

Completed MERN Stack certification in MVC, REST APIs, GraphQL, Deno in UDEMY Completed Next.js Certification Course. Full Stack Development Completed a Training of Full Stack Development
